Just for a bit of fishy fun, what's your biggest catch so far? I ran through the game twice now, first on hard then on the nightmare: As far as I can tell, Dana has the longest cast range (but still doesn't get from one particular fish near the end of the game, no spollers to which!), and fishing skill increases the bonus gained by hammering while using directed hints? But other than that I wasn't sure what the various characters did, so I pretty much left Sahad with No.2 and changed it when chasing wriggling guys... And I'm all forgetting to catch an empty place for chests after I pulled out a whopper of fish... Anyway, these are my records, all caught by Sahad, unless otherwise noted:1.) Sadina - 21.4 2.) Belich - 29.4 3.) Blue Saddy - 27.5 4.) Amana - 23.5 5.) Seyren Trout - 31.9 (Dana)6.) Garvis - 33.5 7.) Robush - 23.6 8.) Belich - 64.9 9.) Samar - 66.6 10.) Gaete Tuna - 72.8 11.) Mirage - 51.612.) A Google search says buy it from Aaron/Euron, but it has no accessory. Do I need to progress in history more (just a pirate ship)? The quest says it's short, so I don't want to go ahead and not or miss it. Aaron/Euron approval maxed out, not sure how I get more accessories for sale from him. Edit: The quest Giant Nemesis quest from Thanatos.Edit 2: Well, I completed the quest anyway, but still no fishing item. More than 85% of the card. So I guess something else launches them into existence. Edit 3: Now Euron has No. 2 Fishing items, getting to Chapter 6 caused it. Don't see No 1.
